# About

There are many ways to surf and many different types of surfboards. Some people like to surf on waves, while others prefer to surf on a beach. The best way to surf is to find a good spot and have fun. Surfing is a great way to stay fit and have fun. It's also a great way to spend time with friends and family. So, if you're looking for a new hobby, surfing is a great choice.

Let us build your board

## Ethos & Sustainability

Our ethos is built on a foundation of sustainability and ethical practices. We believe in using eco-friendly materials and processes to create surfboards that are not only high-performing but also environmentally responsible. Our commitment to sustainability is reflected in every aspect of our business, from the way we source our materials to the way we package and ship our products. We are proud to be a part of the sustainable surf community and we are committed to making a positive impact on the world.

## Customer Service

At Low Tide Surf Club, we pride ourselves on providing exceptional customer service. Our team of experienced surfers and board builders are dedicated to helping you find the perfect surfboard for your needs and budget. We offer personalized advice and support throughout the entire process, from choosing your board to getting it delivered to your door. We believe in building long-term relationships with our customers and we are committed to making every interaction a positive one.

## Our Promise

Our promise is to provide you with the highest quality surfboards and the best customer service possible. We are committed to using only the best materials and the most skilled craftsmen to create boards that are built to last. We also promise to be transparent about our pricing and our processes, so you can make informed decisions about your purchase. We are proud to be a part of the surf community and we are committed to making a positive impact on the world.

Order a Custom Surfboard

There are many different types of surfboards and each one is designed for a specific type of surfing. The most common types of surfboards are shortboards, longboards, and funboards. Shortboards are the most popular type of surfboard and are used for high take-offs and fast turns. Longboards are used for cruising and wave riding. Funboards are a hybrid of shortboards and longboards and are used for all-around surfing. The choice of surfboard depends on the surfer's skill level, the type of waves they want to surf, and their personal preferences. If you are looking for a custom surfboard, you will need to provide the surfer with information about their skill level, the type of waves they want to surf, and their personal preferences. This information will be used to design a surfboard that is tailored to the surfer's needs.

Our custom surfboards are made from the highest quality materials and are designed to last for years. We offer a wide range of options for custom surfboards, including different shapes, sizes, and colors. We also offer a custom logo service, so you can have your own logo on your surfboard. If you are interested in ordering a custom surfboard, please contact us today.
